

## THE WILDLIFE OF CHUDLEIGH PARISH

A series of checklists, some of which are annotated, have been prepared by Dave Smallshire on behalf of Chudleigh *WILD*. They include all records that are known of, but should be regarded as works in progress – they will be updated periodically as new information comes to hand. Not all areas of the Parish are well-represented and anyone who can add, correct or update the information is asked to send details to [davesmall@btinternet.com](mailto:davesmall@btinternet.com). Records of species that have occurred just outside the Parish boundary (shown in red on the map below), or maybe just inside, are sometimes included for context.
